

ESKER DeliveryWare 4.0

Eliminating invoice document drag

Invoicing keeps vital cash flowing through an organization. Optimizing that cash flow depends on effective communication with trading partners to ensure timely billing and payment. But the best efforts of accounting departments are often limited by "document drag" - inefficient manual fax or mail delivery of the invoices, reminders, sales orders, acknowledgements, account statements, and other critical business documents that drive the process.

Hidden Costs of Manual Paper Processes

Manual delivery of invoicing documents costs time and money on two fronts. Before documents can be delivered, data must be extracted and composed from ERP systems or other sources. Then documents are printed and faxed by hand, or folded and inserted into envelopes.

Delivery also typically involves copying and filing for various internal and external recipients involved in invoicing. The higher the volume of documents, the slower the entire process and the greater the potential for human errors.

Complete Document Automation for Invoicing

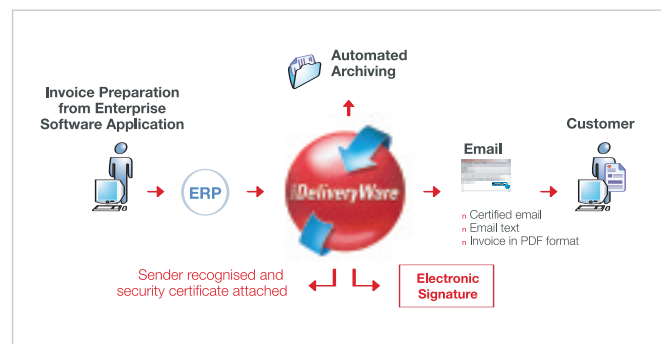

Esker DeliveryWare is the most comprehensive solution for eliminating manual processes involved in the delivery of billing documents. With Esker DeliveryWare you can automate every phase of document delivery: data recognition, document formatting, routing, delivery via multiple transport media, and archiving.

Easy to implement and non-intrusive, Esker DeliveryWare integrates seamlessly with existing IT systems to produce immediate benefits without disrupting current business procedures.

- Shorter invoice-to-payment time
- Lower invoice processing and delivery costs
- Simplified invoice processing and administration
- Up to 90% fewer errors and returns
- Improved productivity with less manual handling
- More efficient cash collection
- Better-looking business documents
- Return on investment in less than one year*

Esker DeliveryWare meets industry-standard requirements for e-invoicing, including archiving and secure delivery of electronic invoices via email using digital signatures. And for high volumes of invoices and other billing documents, Esker on Demand hosted mail or fax services offer cost-effective outsourcing of automated document formatting and delivery from your billing system.

How an Automated E-Invoicing Process Works

Delivery Time and Cost Comparison

PAPER-BASED INVOICES

Preparation Time	43 minutes
Delivery Time	1-2 days
Cost	\$14

E-INVOICING

Preparation Time	1 minute
Delivery Time	Instant
Cost	\$6.85

Typical savings per 1,000 documents per month: \$7,150*
Typical payback in 4 months, 198% ROI over 12 months*

*Actual results may vary
